Next 1,000 KWH .0323 per KWH
Over 2,000 KWH .0264 per KWH

Cy 78

DETERMINATION OF BILLING DEMAND

The billing demand shall be the maximum kilowatt demand established by the consumer for any period of fifteen minutes during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided below.

POWER FACTOR ADJUSTMENT

The consumer agrees to maintain unity power factor as nearly as practicable. The measured demand will be adjusted for consumers with 50 KW or more of measured demand to correct for average power factors lower than 90% and may be so adjusted for other consumers if and when the Seller

deems necessary. Such adjustments will be made by increasing the measured demand 1% for each 1% by which the average power factor is less than 90% lagging.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be \$6.89 single-phase service and \$19.60 for three-phase service.

MINIMUM ANNUAL CHARGE FOR SEASONAL SERVICE

Consumers requiring service only during certain seasons of the year shall be billed under the above schedule plus 25 percent and the minimum monthly charge shall not apply. There shall be a minimum annual charge sufficient to assure adequate compensation for the facilities installed to serve the consumer, but in no case less than \$103.35 per year for single-phase service and \$294.00 per year for three-phase service nor less than \$39.30 per kilowatt of maximum demand established during the year.

FUEL COST ADJUSTMENT CHARGE

In case the consumer's billing demand for the current month exceeds ten kilowatts, the foregoing energy charge shall be adjusted, provided the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract. In such case foregoing energy charges shall be adjusted for the current month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceding month. In case there is no demand charge, the monthly rate may be increased by 0.1 mill per kilowatt hour for each 0.1 mill or major fraction thereof by which Seller's purchased power at wholesale is adjusted for fuel cost in excess of 1.5 mills per kilowatt hour for the average of the past three months in accordance with a fuel cost adjustment in Seller's Wholesale Power Contract.

LARGE POWER SERVICE

RATE
PER UNIT

DETERMINATION OF BILLING DEMAND

The billing demand shall be the maximum kilowatt demand established by the consumer for any period of fifteen minutes during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided.

(No Change)

FUEL COST ADJUSTMENT CHARGE

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceding month.

(No Change)

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question:

(No Change)

1. The minimum monthly charge specified in the contract for service.
2. The demand charge.
3. A charge of \$70.00.

Handwritten signature/initials

MINIMUM ANNUAL CHARGE FOR SEASONAL SERVICE

Consumers requiring service only during certain seasons of the year shall be billed under the above schedule plus 25 percent and the minimum monthly charge shall not apply. There shall be a minimum annual charge sufficient to assure adequate compensation for the facilities installed to serve the consumer, but in no case less than \$21.00 per kilowatt of maximum demand established during the year.

SERVICE PROVISIONS

1. Delivery Point. If service is furnished at secondary voltage, the delivery point shall be the metering point unless otherwise specified in the contract for service. All wiring, pole lines and other electric equipment on the load side of the delivery point shall be owned and maintained by the consumer. If service is furnished at Seller's primary line voltage the delivery point shall be the point of attachment of Seller's primary line to consumer's transformer structure unless otherwise specified in the contract for service. All wiring, pole lines and other electric equipment (except metering equipment) on the load side of the delivery point shall be owned and maintained by the consumer.

(No Change)

2. Primary Service. If service is furnished at primary distribution voltage, a discount of ten percent shall apply to the demand and energy charges. The Seller shall have the option of metering at secondary voltage and adding the estimated transformer losses to the metered kilowatt hours and kilowatt demand.

(No Change)

TERMS OF PAYMENT

The above charges are net, the gross being five percent higher on the first \$25.00 and two percent on the remainder of the bill. In the event the current monthly bill is not paid within ten days from the date of the bill, the gross charges shall apply.
