## RULES AND REGULATIONS

### A. GENERAL

#### 1. SCOPE

This Schedule of Rules and Regulations is a part of all contracts for receiving electric service from the Cooperative and applies to all service received from the Cooperative whether the service received is based upon a contract, agreement, signed application, or otherwise. No employee or individual director of the Cooperative is permitted to make an exception to rates or Rules and Regulations. Rates and service information can be obtained from the Cooperative's office or Cooperative personnel. C

#### 2. REVISIONS

These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time after approval of Clark RECC's Board of Directors and the Public Service Commission. Such changes when effective shall have the same force as the present Rules and Regulations. The Members shall be informed of any changes as soon as possible, after adoption by the Board of Directors, through the Cooperative's monthly newsletter or direct mailing. C

#### 3. CONSUMER'S RESPONSIBILITY FOR COOPERATIVE'S PROPERTY

All meters, service connections, and other equipment furnished by the Cooperative shall be, and remain, the property of the Cooperative. The member shall exercise proper care to protect the property of the Cooperative on it's premises; and in the event of loss or damage to the Cooperative's property arising from neglect of the member to care for same, the cost of necessary repairs or replacement shall be paid by the member. C

#### 4. CONTINUITY OF SERVICE

The Cooperative shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy, but if such a supply should fail or be interrupted or become defective through act of God, or the public enemy, or by accident, strikes, labor troubles, or by action of the elements, or by inability to secure right(s)-of-way or other permits needed, or for any other cause beyond the reasonable control of the Cooperative, the Cooperative shall not be liable. RULES AND REGULATIONS

5. RELOCATION OF LINES

The Cooperative will cooperate with all political subdivisions in the construction, improvement or rehabilitation of public streets and highways. It is expected that these political subdivisions will give reasonable notice to permit the Cooperative to relocate its lines to permit the necessary road construction. C

If the Cooperative's poles, anchors, and other appurtenances are located within the confines of the public right(s)-of-way, the Cooperative shall make the necessary relocation at its own expense. If the Cooperative's poles, anchors or other facilities are located on private property, the political subdivision then shall agree to reimburse the Cooperative. Upon request by member-property owner, where facilities are to be relocated, relocation will be considered provided adequate right-of-way can be obtained for the relocation requested. The member-owner will be required to pay the cost of materials necessary to make the requested changes unless one or more of the following conditions are met:

- (a) The relocation is made for the convenience of the Cooperative.
- (b) The relocation will result in a substantial improvement in the Cooperative's facilities or their location.
- (c) That the relocation is associated with other regularly scheduled conversion or construction work and can be done at the same time.
- (d) Per member-owner request when right-of-way is provided. In such instance member-owner will be required to pay for materials to make requested changes.

6. SERVICES PERFORMED FOR MEMBERS

The Cooperative's personnel shall not while on duty make repairs or perform service to the member's equipment or property except in cases of emergency or to protect the public or member's person or property. When such emergency services are performed, the member shall be charged for such service (s) at the rate of time and material (s) used. C

**RULES AND REGULATIONS**

7. APPLICATION FOR SERVICE

Each prospective member desiring electric service will be required to sign the Cooperative's "Application for Membership and for Electric Service", also, sign a contract when applicable, before service is supplied by the Cooperative and provide the Cooperative with necessary easements or right(s)-of-way permits.

8. MEMBERSHIP FEE

The membership fee in the Corporation shall be ten dollars (\$10.00).

9. RIGHT OF ACCESS

Each member shall give and grant right of access to the Cooperative without paid compensation to his, hers, or its lands and premises for the purpose of placing, locating, building, constructing, operating, replacing, rebuilding, relocating, repairing, improving, enlarging, extending and maintaining on, over, or under such lands and premises, or removing therefrom its electric distribution system new or existing lines, wires, poles, anchors and other necessary or appurtenant parts.

10. MEMBERS DESIRING SERVICE OR DISCONTINUANCE OF SERVICE

Any member desiring service, discontinuance of service, or changed from one location to another, shall give the Cooperative three (3) days' notice in person or in writing provided such notice does not violate contractual obligations.

11. RECONNECTION CHARGES

The Cooperative will make no charge for connecting service to the member's premises for the initial installation of service. There shall be a fee of \$15.00 for each service connection thereafter occurring more frequently than once each twelve-month period for the consumer.

12. RESALE OF POWER BY MEMBERS

All purchased electric service used on the premises of the member shall be supplied exclusively by the Cooperative, and the member shall not directly or indirectly sell, sublet, or otherwise dispose of the electric service or any part thereof, except by written contract.

approved by the Board of Directors.

13. TEMPORARY SERVICE

Facilities that are temporary in nature such as for construction contractors, sawmills, oil wells, carnivals, etc. will be provided to consumers desiring such facilities, provided they pay an advance fee equal to the reasonable cost of providing and removing such facilities.

14. DISTRIBUTION LINE EXTENSIONS TO MOBILE HOMES

- (a) All extensions of up to 150 feet from the nearest facility shall be made without charge.
- (b) Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the consumer shall pay the Cooperative a "consumer advance for construction" of fifty dollars (\$50) in addition to any other charges required by the Cooperative for all consumers. This advance shall be refunded at the end of one (1) year if the service to the mobile home continues for that length of time.
- (c) For extensions greater than 300 feet and less than 1,000 feet from the nearest facility, the Cooperative may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond 300 feet plus fifty dollars (\$50).
- (d) This advance shall be refunded to the consumer over a four (4) year period in equal amounts for each year the service is continued.
- (e) If the service is discontinued for a period of sixty days, or should the mobile home be removed and another not take its place within sixty (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.
- (f) No refunds shall be made to any consumer who did not make the advance originally.

For extensions beyond 1,000 feet from the nearest facility, the extension policies are the same as normal distribution line extensions.

**RULES AND REGULATIONS**

**15. DISTRIBUTION LINE EXTENSION**

(1) Normal Extensions. An extension of 1,000 feet or less shall be made by the Cooperative to its existing distribution line without charge for a prospective consumer who shall apply for and contract to use the service for one (1) year or more and provides guarantee for such service. The "service drop" to the point of attachment from the distribution line at the last pole shall not be included in the foregoing measurements. (2) Other Extensions. (a) When an extension of the Cooperative's line to serve an applicant or group of applicants amounts to more than 1,000 feet per consumer, the Cooperative may, if not inconsistent with its filed tariff, require the total cost of the excessive footage over 1,000 feet per consumer to be deposited with the Cooperative by the applicant or applicants based on the average estimated cost per foot of the total extension. (b) Each consumer receiving service under such extension will be reimbursed under the following plan: Each year for a period of not less than ten (10) years, which for the purpose of this rule shall be the refund period, the Cooperative shall refund to the consumer or consumers who paid for the excessive footage the cost of 1,000 feet of the extension in place for each additional consumer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom. In no case shall the total amount refunded exceed the amount paid the Cooperative. After the end of the refund period, no refund will be required to be made. (c) An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year for a period of not less than ten (10) years the Cooperative shall refund to the applicant who paid for the extension a sum equivalent to the cost of 1,000 feet of the extension installed for each additional consumer connected during the year, but in no case shall the total amount refunded exceed the amount paid to the Cooperative. After the end of the refund period from the completion of the extension, no refund will be required to be made. (d) Nothing contained herein shall be construed as to prohibit the Cooperative from making extensions under different arrangements provided such arrangements have been approved by the Commission. (e) Nothing herein shall be construed as to prohibit the Cooperative from making at its expense greater extensions than herein prescribed, should its judgment so dictate, provided like free extensions are made to other consumers under similar conditions. (f) Upon complaint to and investigation by the Commission, the Cooperative may be required to construct extensions greater than 1,000 feet upon a finding by the Commission that such extension is reasonable.

**RULES AND REGULATIONS**

16. DISCONTINUANCE AND REFUSAL OF SERVICE BY THE COOPERATIVE

The utility may refuse or discontinue service to an applicant or customer, after proper notice for failure to comply with its rules and regulations or state and municipal rules and regulations, when a customer or applicant refuses or neglects to provide reasonable access to the premises, for fraudulent or illegal use of service, for nonpayment of bills or when a dangerous condition is found to exist on the customer's or applicant's premises, service shall be cut off without notice or refused. If discontinuance is for nonpayment of bills, the customer shall be given at least ten (10) days' written notice, separate from the original bill, and cut-off shall be effected not less than twenty-seven (27) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

17. RECONNECTION

For all cases of refusal or discontinuance of service as herein defined where the cause for refusal or discontinuance has been corrected and all rules and regulations of the Cooperative and the Commission have been complied with, the Cooperative shall promptly render service to the member or applicant.

When advance notice is required, such notice may be given by the Cooperative by mailing by United States mail, postage prepaid, to the last know address of the applicant or member.

**RULES AND REGULATIONS**

18. METER TESTS

The Cooperative will, at its own expense, make periodical tests and inspections of all its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of the meter at the request of the member provided a fee of \$30.00 is paid in advance. In case the test made at the member's request shows that the meter is accurate within two percent (2%), fast or slow, no adjustment will be made in the member's bill, and the fee paid will be forfeited to cover the cost of testing. In case the test shows the meter is in excess of two percent (2%), fast or slow, an adjustment shall be made in the member's bill in accordance with the Public Service Commission's Rules and Regulations.

19. FAILURE OF METER TO REGISTER

In the event a member's meter should fail to register, the member shall be billed from the date of such failure at the average consumption of the member based on the twelve (12-month) period immediately preceding the failure, or some other equitable basis.

20. CONSUMER EQUIPMENT

Point of delivery - The point of delivery is the point as designated by the Cooperative on member's premises where current is to be delivered to building or premises; namely, the point of attachment. A member requesting a delivery point different from the one designated by the Cooperative will be required to pay the additional cost of providing the service at such delivery point. All wiring and equipment beyond this point of delivery shall be supplied and maintained by the member.

21. MEMBER OR CONSUMER'S WIRING STANDARDS

All wiring of member or consumer must conform to Cooperative requirements and accepted modern standards, as exemplified by the requirements of the National Electrical Code. The Cooperative, however, assumes no responsibility in respect to the type, standard of construction, protective equipment or the condition of the member's property, and will not be liable for any loss or injury to persons or property occurring on the premises or property of the member. The member will have complete responsibility for all construction, operation, and maintenance beyond the meter.

22. INSPECTIONS

The Cooperative shall have the right, but shall not be obligated to inspect any installation before electricity is introduced, or at any later time, and reserves the right to reject any wiring or appliances not in accordance with the National Electrical Code or other governing bodies, but such inspection or failure to inspect or reject shall not render the cooperative liable or responsible for any loss or damage resulting from defects in the installation, wiring, or appliances, or from violation of the Cooperative's rules, or from accidents which may occur upon member's premises.

23. BILLING

The Cooperative will mail through the United States postal service a statement to each member for electrical service on or about the first of each month for service rendered for the previous month. All charges are net and payable within ten (10) days from the date of the statement. Failure to receive a statement will not release the member from payment obligations.

24. COLLECTION OF DELINQUENT ACCOUNTS

Should it become necessary for the Cooperative's representative to call at the consumer's premises or other locations for the purpose of collecting a delinquent account, a charge of \$15.00 will be applied to the member's account for the extra service rendered, due and payable at time such delinquent account is collected. If service is disconnected for non-payment, a charge of \$30.00 will be made for reconnecting service due and payable at time of such reconnection. If the consumer requests reconnection after regular working hours, the charge will be \$45.00.

25. METER READING

Each member receiving service will read his meter the 1st of each month and no later than the 10th of each month. In the event that the member fails to read the meter as outlined or fails to notify the Cooperative office for two successive months, the Cooperative will read same meter and bill the member \$15.00 for this service.

**RULES AND REGULATIONS**

26. DEPOSITS

The cooperative may require from any consumer or applicant for service a minimum cash deposit or guaranty to secure payment of bills an amount not to exceed two-twelfths (2/12) of the estimated annual bill of such consumer or applicant. The required deposit is to accumulate interest at six percent (6%) per annum to be paid by the cooperative. When the residential deposit is retained for more than eighteen (18) months, the member will be notified at least annually by a general mailer or bill stuffer that the member may request in writing that the deposit be recalculated based on actual usage. If the deposit differs by more than ten dollars (\$10.00), Clark RECC may collect any underpayment and will refund any over collection upon the receipt of the original certificate of deposit, providing that the consumer's bill is not delinquent by more than one (1) billing period at the time of recalculation.

27. RETURN CHECK CHARGE

The Cooperative will apply to a member's account a charge of \$5.00 for each member's check returned to the Cooperative.

28. MONITORING USAGE

Clark RECC shall monitor KWH usage so as to detect any unusually high deviations in individual KWH usage. The computerized billing system is designed to alert Clark RECC to any meter reading that would indicate KWH usage to be 200% higher or 50% lower than the prior month's KWH usage. All accounts that are so indicated will be reviewed by Clark RECC personnel. Any accounts that are determined to have unusually high usage or unusually low usage will be processed in accordance with 807 KAR5:006, Sect. 9(6).

RULES AND REGULATIONS

27. ELECTRIC UNDERGROUND EXTENSIONS

A. Purpose of Policy

The purpose of this policy is to formulate Clark R.E.C.C. requirements for underground electrical service, the application of which will insure adequate service and safety to all persons engaged in the construction, maintenance, operation or use of underground facilities and to the public in general. T

B. Applicability

This policy shall apply to all underground electrical supply facilities used in connection with electric service distribution in new residential subdivisions after the effective date of this policy.

C. Definitions

The following words and terms, when used in this policy shall have the meaning indicated:

Applicant - the developer, builder or other person, partnership, association, corporation or governmental agency applying for the installation of an underground electric distribution system.

Building - a structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts and designed for less than five (5) family occupancy.

Multiple-Occupancy Building - a structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts and designed to contain five (5) or more individual dwelling units.

Distribution System - electric service facilities consisting of primary and secondary conductors, transformers, and necessary accessories and appurtenances for the furnishing of electric power at utilization voltage.

RULES AND REGULATIONS

Subdivision - the tract of land which is divided into ten (10) or more lots for the construction of new residential buildings, or the land on which is constructed two (2) or more new multiple-occupancy buildings.

Trenching and Backfilling - opening and preparing the ditch for the installation of conductors including placing of raceways under roadways, driveways, or paved areas; providing a sand bedding below and above conductors when required; and backfill of trench to ground level.

D. Rights of Way and Easements

1. The Cooperative shall construct, own, operate, and maintain distribution lines only along easements, public streets, roads, and highways which are by legal right accessible to the utility's equipment and which the utility has the legal right to occupy, and on the public lands and private property across which rights of way and easements satisfactory to the Cooperative are provided without cost or condemnation by the Cooperative.
2. Rights of way and easements suitable to the Cooperative for the underground distribution facilities must be furnished by the Applicant in reasonable time to meet service requirements. The Applicant shall make the area in which the underground distribution facilities are to be located accessible to the Cooperative's equipment, remove all obstructions from such area, stake to show property lines and final grade, perform rough grading to a reasonable approximation of final grade, and maintain clearing and grading during construction by the Cooperative. Suitable land rights shall be granted to the Cooperative obligating the Applicant and subsequent property owners to provide continuing access to the utility for operation, maintenance or replacement of its facilities, and to prevent any encroachment in the utility's easement or substantial changes in grade or elevation thereof.

CHECKED

RULES AND REGULATIONS

underground electric distribution system of sufficient capacity and suitable materials which, in its judgment, will assure that the property owners will receive safe and adequate electric service for the foreseeable future.

2. All single-phase conductors installed by the utility shall be underground. Appurtenances such as transformers, pedestal-mounted terminals, switching equipment and meter cabinets may be placed above ground.
3. Multi-phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual multi-phase loads may be overhead unless underground is required by governmental authority or chosen by the Applicant, in either of which case the differential cost of underground shall be borne by the Applicant.
4. If the Applicant has complied with the requirements herein and has given the Cooperative not less than 120 days' written notice prior to the anticipated date of completion (i.e., ready for occupancy) of the first building in the subdivision, the Cooperative shall complete the installation 30 days prior to the estimated completion date. (Subject to weather and ground conditions and availability of materials and barring extraordinary or emergency circumstances beyond the reasonable control of the Cooperative.) However, nothing in this policy shall be interpreted to require the Cooperative to extend service to portions of the subdivisions not under active development.
5. A non-refundable payment shall be made by the Applicant equal to the difference between the cost of providing underground facilities and that of providing overhead facilities. The payment to be made by Applicant shall be determined from the total footage of single-phase primary, secondary, and service conductor to be installed at an average per foot cost differential in accordance with the Average Cost Differential filed herewith as Exhibit A., which Average Cost Differential shall be updated annually as required by order dated February 2, 1973 of the Public Service Commission of Kentucky in Administrative Case No. 146. (Three (3) wire secondary and service conductor runs shall be considered as one conductor, i.e. triplex.) The average cost differential per foot, as stated, is representative of construction is soil free of rock, shale, or other impairments

which increase cost of construction. Where rock, shale, or other impairments are anticipated or encountered in construction the actual increased cost of trenching and backfilling shall be borne by the Applicant.

6. The Applicant may be required to deposit the entire estimated cost of the extension. If this is done, the amount deposited in excess of the normal charge for the underground extensions, as provided in paragraph 5, above, shall be refunded to the Applicant over a ten (10) year period as provided in Public Service Commission Rule Elec-1-X-3.
7. The Applicant may be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications. The Cooperative shall then credit the Applicant's cost in an amount equal to the Cooperative's normal cost for trenching and backfilling.
8. The Cooperative shall furnish, install, and maintain the service lateral to the Applicant's meter base, which normally will be at the corner of the building nearest the point to be served.
9. Plans for the location of all facilities to be installed be approved by the Cooperative and the Applicant prior to construction. Alterations in plans by the Applicant which require additional cost of installation or consideration shall be at the sole expense of the Applicant.
10. The Cooperative shall not be obligated to install any facility within a subdivision until satisfactory arrangements for the payment of charges have been completed by the Applicant.
11. The charges specified in these rules are based on the premise that each Applicant will cooperate with the utility in an effort to keep the cost of construction and installation of the underground electric distribution system as low as possible and make satisfactory arrangements for the payment of the above charges prior to the installation of the facilities.
12. All electrical facilities shall be installed and constructed to comply with the rules and regulations of the Public Service Commission, National Electric Safety Code, Clark R.E.C.C. Specifications, or other rules and regulations which may be applicable.

- 13. Service pedestals and method of installation shall be approved by Clark R.E.C.C. prior to installation.
- 14. In unusual circumstances, when the application of these rules appears impracticable or unjust to either party, or discriminatory to other customers, the Cooperative or Applicant shall refer the matter to the Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.

REVISED EXHIBIT A

May 31, 1990

AVERAGE PRIMARY UNDERGROUND COST DIFFERENTIAL

Average cost of underground per foot . . . . . \$13.63  
 Average cost of overhead per foot . . . . . \$ 4.39  
 Average differential cost per foot . . . . . \$ 9.24

An additional \$13.00 per linear foot of trenching shall be charged where extremely rocky conditions are encountered requiring special excavation or cutting equipment.

The average differential cost per foot shall be reduced \$7.04 per foot to \$2.20 per foot should the consumer provide all trenching and backfill services.

The average cost differential per foot is not inclusive of the cost differential of padmounted equipment or other special equipment items.

AVERAGE SECONDARY UNDERGROUND COST DIFFERENTIAL

Average cost of underground per foot . . . . . \$ 6.27  
 Average cost of overhead per foot . . . . . \$ 4.39  
 Average differential cost per foot . . . . . \$ 1.88

**PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE**

Consumer provides trenching, conduit, conduit assembly within trench and backfill.

DISTRIBUTION LINE EXTENSION TO  
STRUCTURES AND/OR FACILITIES OTHER THAN RESIDENCES (HOUSES)

1. The cooperative will extend service to structures and facilities other than residences under the following conditions:
  - a. Adequate right-of-way easement to construct extension will be made available to the cooperative.
  - b. All fees including the membership fee to be paid at the time of application for service.
  - c. Extensions of up to 150 feet from the nearest facility shall be made without additional charge for line construction.
  - d. Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the consumer shall pay the utility a "consumer advance for construction" of fifty (\$50) dollars in addition to any other charges required by the utility. This advance shall be refunded at the end of one (1) year if the service to the facility continues for that length of time.
  - e. For extensions greater than 300 feet and less than 1000 feet from the nearest facility, the utility may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond 300 feet plus fifty (\$50) dollars.
    1. This advance shall be refunded to the consumer over a four (4) year period in equal amounts for each year the service is continued.
    2. If the service is discontinued for a period of sixty (60) days, or should the facility be removed and another not take its place within sixty (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.
    3. No refunds shall be made to any consumer who did not make the advance originally.
    4. Structures must be wired and pass electrical inspection prior to construction of the extension.
- II. Extensions made under item e shall be made on an "Estimated Average Cost" per foot of line. This cost may be reviewed and updated at six-month intervals.
- III. For line extensions beyond 1000 feet from the nearest facility, the extension policies are the same as normal distribution line extensions.
- IV. The cooperative retains full ownership of all extensions and electrical facilities installed by the cooperative.

RULES AND REGULATIONS

BUDGET BILLING PAYMENT PLAN

OBJECTIVE: To establish a procedure whereby members may pay their electric bill in equal monthly installments.

A. AVAILABILITY: Available to all Clark Rural Electric Cooperative residential members who have received service at their present location for one year.

B. TERMS OF POLICY:

1. The budget year begins in August and continues through June with regular budget payments. July, the 12th month, will be account settlement month. If an account has been billed under actual usage, the balance will be due in July. If an account has a credit, the credit may be used to pay the July bill and/or taken into consideration when the next year's budget plan is figured.

2. All Budget Plan Members are required to read their own meter on the first of each month and report readings by the tenth of the month to the office.

3. All Budget Plan Members are required to pay their bill on or before the tenth of each month.

4. All Budget Plan Members are required to pay the exact budget amount each month.

C. Members will be dropped from the Budget Billing Payment Plan if:

1. An estimated reading is made by the cooperative on a budget account.

2. A payment is skipped.

3. The account appears as a delinquent bill.

D. How the Budget Billing Payment Plan is determined:

1. Take past twelve months KWH usage.

2. Add taxes and security light charges, if any.

3. Divide total by eleven.

4. Figure equals the budget amount for the account.

RULES AND REGULATIONS

Please note that anticipated rate increases are taken into consideration when the budget account is figured each year.

GENERAL RULES:

1. Member must have been on service one year at the same location.
2. Budget amount is based on the previous year's KWH usage, predicted usage, and expected rate increases and fuel cost adjustment, and divided over twelve months.
3. Estimated or delinquent bills will void the contract and member's name will be removed from the Budget Billing Payment Plan.
4. Contract period runs from August to July each year. The bill paid in July will close out the contract and any credit remaining after subtracting the July bill will be carried over into the new contract year.
5. No payments may be skipped even if a credit is built up to cover a month's bill during the contract period.

ELECTRIC UNDERGROUND EXTENSIONS, NEW  
RESIDENTIAL SUBDIVISIONS POLICY

OBJECTIVE: To establish procedure for providing underground extension in new subdivisions.

A. Purpose of Policy

The purpose of this policy is to formulate Clark RECC requirements for underground electrical service, the application of which will insure adequate service and safety to all persons engaged in the construction, maintenance, operation or use of underground facilities and to the public in general.

B. Applicability

This policy shall apply to all underground electrical supply facilities used in connection with electric service distribution in new residential subdivisions after the effective date of this policy.

C. Definitions

The following words and terms, when used in this policy, shall have the meaning indicated:

Applicant - the developer, builder or other person, partnership, association, corporation or governmental agency applying for the installation of an underground electric distribution system.

Building - a structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts and designed for less than five (5) family occupancy.

Multiple-Occupancy Building - a structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts and designed to contain five (5) or more individual dwelling units.

Distribution System - electric service facilities consisting of primary and secondary conductors, transformers, and necessary accessories and appurtenances for the furnishing of electric power at utilization voltage.

RULES AND REGULATIONS

Subdivision - the tract of land which is divided into ten (10) or more lots for the construction of new residential buildings, or the land on which is constructed two (2) or more new multiple-occupancy buildings.

Trenching and Backfilling - opening and preparing the ditch for the installation of conductors including placing of raceways under roadways, drive-ways, or paved areas; providing a sand bedding below and above conductors when required; and backfill of trench to ground level.

D. Rights of Way and Easements

1. The Cooperative shall construct, own, operate, and maintain distribution lines only along easements, public streets, roads, and highways which are by legal right accessible to the utility's equipment and which the utility has the legal right to occupy, and on the public lands and private property across which rights of way and easements satisfactory to the Cooperative are provided without cost or condemnation by the Cooperative.
2. Rights of way and easements suitable to the Cooperative for the underground distribution facilities must be furnished by the Applicant in reasonable time to meet service requirements. The Applicant shall make the area in which the underground distribution facilities are to be located accessible to the Cooperative's equipment, remove all obstructions from such area, stake to show property lines and final grade, perform rough grading to a reasonable approximation of final grade, and maintain clearing and grading during construction by the Cooperative. Suitable land rights shall be granted to the Cooperative obligating the Applicant and subsequent property owners to provide continuing access to the utility for operation, maintenance or replacement of its facilities, and to prevent any encroachment in the utility's easement or substantial changes in grade or elevation thereof.

E. Installation of Underground Distribution System Within New Subdivisions

1. Where appropriate contractual arrangements have been made, the Cooperative shall install within the subdivision an underground electric distribution system of sufficient capacity and suitable materials which, in its judgment, will assure that the property owners will receive safe and adequate electric service for the foreseeable future.

RULES AND REGULATIONS

2. All single-phase conductors installed by the utility shall be underground. Appurtenances such as transformers, pedestal-mounted terminals, switching equipment and meter cabinets may be placed above ground.
3. Multi-phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual multi-phase loads may be overhead unless underground is required by governmental authority or chosen by the Applicant, in either of which case the differential cost of underground shall be borne by the Applicant.
4. If the Applicant has complied with the requirements herein and has given the Cooperative not less than 120 days' written notice prior to the anticipated date of completion (i.e., ready for occupancy) of the first building in the subdivision, the Cooperative shall complete the installation 30 days prior to the estimated completion date. (Subject to weather and ground conditions and availability of materials and barring extraordinary or emergency circumstances beyond the reasonable control of the Cooperative.) However, nothing in this policy shall be interpreted to require the Cooperative to extend service to portions of the subdivisions not under active development.
5. A non-refundable payment shall be made by the Applicant equal to the difference between the cost of providing underground facilities and that of providing overhead facilities. The payment to be made by Applicant shall be determined from the total footage of single-phase primary, secondary, and service conductor to be installed at an average per foot cost differential in accordance with the Average Cost Differential filed herewith as Exhibit A, which Average Cost Differential shall be updated annually as required by order dated February 2, 1973 of the Public Service Commission of Kentucky in Administrative Case No. 146. (Three (3) wire secondary and service conductor runs shall be considered as one conductor, i.e. triplex.) The average cost differential per foot, as stated, is representative of construction is soil free of rock, shale, or other impairments which increase cost of construction. Where rock, shale, or other impairments are anticipated or encountered in construction the actual increased cost of trenching and backfilling shall be borne by the Applicant.
6. The Applicant may be required to deposit the entire estimated cost of the extension. If this is done, the amount deposited in excess of the

normal charge for the underground extensions, as provided in paragraph 5, above, shall be refunded to the Applicant over a ten (10) year period as provided in Public Service Commission Rule Elec-1-X-3.

7. The Applicant may be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications. The Cooperative shall then credit the Applicant's cost in an amount equal to the Cooperative's normal cost for trenching and backfilling.
8. The Cooperative shall furnish, install, and maintain the service lateral to the Applicant's meter base, which normally will be at the corner of the building nearest the point to be served.
9. Plans for the location of all facilities to be installed by the Cooperative and the Applicant prior to construction. Alterations in plans by the Applicant which require additional cost of installation or consideration shall be at the sole expense of the Applicant.
10. The Cooperative shall not be obligated to install any facility within a subdivision until satisfactory arrangements for the payment of charges have been completed by the Applicant.
11. The charges specified in these rules are based on the premise that each Applicant will cooperate with the utility in an effort to keep the cost of construction and installation of the underground electric distribution system as low as possible and make satisfactory arrangements for the payment of the above charges prior to the installation of the facilities.
12. All electrical facilities shall be installed and constructed to comply with the rules and regulations of the Public Service Commission, National Electric Safety Code, Clark R.E.C.C. Specifications, or other rules and regulations which may be applicable.
13. Service pedestals and method of installation shall be approved by Clark R.E.C.C. prior to installation.
14. In unusual circumstances, when the application of these rules appears impracticable or unjust to either party, or discriminatory to other customers, the Cooperative or Applicant shall refer the matter to the Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon, prior to commencing construction.

**DISTRIBUTION LINE EXTENSION TO INDIVIDUAL RESIDENT-TYPE MOBILE HOMES (N)**

I. The Cooperative will extend service to individual resident-type mobile homes under the following conditions:

- A. Adequate right-of-way easement to construct extension will be made available to the Cooperative.
- B. All fees including ten dollar (\$10.00) membership be paid at the time of application of service.
- C. Extensions of up to 150 feet from the nearest facility shall be made without additional charge for line construction.
- D. Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the consumer shall pay the utility a "consumer advance for construction" of fifty dollars (\$50) in addition to any other charges required by the utility. This advance shall be refunded at the end of one (1) year if the service to the mobile home continues for that length of time.
- E. For extensions greater than 300 feet from the nearest facility, the utility may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond 300 feet plus fifty dollars (\$50).

- 1. This advance shall be refunded to the consumer over a four (4) year period in equal amounts for each year the service is continued.
- 2. If the service is discontinued for a period of sixty (60) days, or should the mobile home be removed and another not take its place within sixty (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.
- 3. No refunds shall be made to any consumer who did not make the advance originally.

II. Extension made under Item E shall be made on an "Estimated Average Cost" per foot of line. This cost may be reviewed and updated at six-month intervals.
