All other previous SHEET NO.       

RULES AND REGULATIONS

APPLICABLE TO ALL CLASSES OF SERVICE

1. Application for Service: Each prospective member or customer desiring electric service will be required to sign cooperative's (hereinafter referred to as distributor) standard form of application for service or contract before service is supplied by the Distributor.

2. Membership Fee: A membership fee of \$50.00 and application is required for each service. Discontinuance of service will automatically terminate the active membership and the membership fee will be applied against any unpaid bills, or if the account is paid in full, the fee may be refunded to the member. Membership Fees are not transferable from one member to another.

3. Deposit: A deposit not exceeding two-twelfths (2/12) of the estimated annual bill may be required of any member or customer before electric service is supplied. The Distributor may, at its option, return deposit to customer after one year. Upon termination of service, deposit may be applied by Distributor against unpaid bill of member, and if any balance remains after such application is made, said balance shall be refunded to member. Above deposits will accumulate interest at the rate of six per cent (6%) annually.

4. Point of Delivery: The point of delivery is the point, as designated by Distributor, on member or customer's premises where current is to be delivered to building or premises. Any other point of delivery, requested by the member or customer other than that designated by the Distributor, the additional cost shall be borne by the member or customer.

5. Continuity of Service: The Distributor shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy, but if such supply shall fail or be interrupted or become defective through act of God, on the public enemy or by accident, strikes, labor troubles, or by action of the Elements, Commission inability to secure easements or other permits needed, or for any other cause beyond the reasonable control of the Distributor, the Distributor shall not be liable.

6. Member or Customer's Wiring Standards: All wiring of member or customer shall conform to Distributor requirements and accepted modern standards, as exemplified by the requirement of the National Electrical Safety Code and the National Electric Code.
