RULES AND REGULATIONS

A. General

1. SCOPE

This schedule of Rules and Regulations is a part of all contracts for receiving electric service from the Cooperative and applies to all service received from the Cooperative whether the service received is based upon a contract, agreement, signed application, or otherwise. No employee or individual director of the Cooperative is permitted to make an exception to rates or Rules and Regulations. Rates and service information can be obtained from the Cooperative's office.

2. REVISIONS

These Rules and Regulations may be revised, amended, supplemented or otherwise changed from time to time without notice. Such changes when effective shall have the same force as the present Rules and Regulations. The members shall be informed of any changes as soon as possible, after adoption by the Board of Directors, through the Cooperative's monthly newsletter.

3. CONSUMER'S RESPONSIBILITY FOR COOPERATIVE'S PROPERTY

All meters, service connections, and other equipment furnished by the Cooperative shall be, and remain, the property of the Cooperative. The member shall exercise proper care to protect the property of the Cooperative on its premises and in the event of loss or damage to the Cooperative's property arising from neglect of member to care for same, the cost of necessary repairs or replacement shall be paid by the member.

4. CONTINUITY OF SERVICE

2-11-63
The cooperative shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy, but if such supply shall fail or be interrupted or become defective through act of God, or the public enemy, or by accident, strikes, labor troubles, or by action of the elements, or inability to secure rights-of-way or other permits needed, or for any other cause beyond the reasonable control of the Cooperative, the Cooperative shall not be liable therefor.

RULES AND REGULATIONS

5. RELOCATION OF LINES BY REQUEST OF MEMBERS

The Cooperative's established lines will not be relocated unless the expense for moving and relocating is paid by the member, except in instances where it would be to the advantage of the Cooperative to make such relocation.

6. SERVICES PERFORMED FOR MEMBERS

The Cooperative's personnel is prohibited from making repairs or performing services to the members equipment or property except in cases of emergency or to protect the public or members' person or property. When such emergency services are performed, the member shall be charged for such service at the rate of time and material.

B. Service Procedures

7. APPLICATION FOR SERVICE

Each prospective member desiring electric service will be required to sign the Cooperative's form, "Application for Membership and For Electric Service," before service is supplied by the Cooperative and provide the Cooperative with necessary easements or right-of-way permits.

8. MEMBERSHIP FEE

The membership fee in the Corporation shall be \$5.00 (Five Dollars). One membership must be held in connection with each person receiving service. The membership fee will be refunded if all bills are paid or applied against any unpaid bills of the member at the time service is discontinued which will automatically terminate the membership. Service covered by each membership shall be metered and billed separately. An additional \$5.00/required for non-property owners.
deposit

9. RIGHT OF ACCESS

The cooperative's identified employees shall have access to member's premises at all reasonable times for the purpose of reading meter, testing, repairing, removing, or exchanging any and all equipment belonging to the Cooperative.

RULES AND REGULATIONS

10. MEMBER'S DISCONTINUANCE OF SERVICE

Any member desiring service discontinued or changed from one location to another shall give the Cooperative three (3) days' notice in person or in writing provided such notice does not violate contractual obligations.

11. RECONNECTION CHARGE

The Cooperative will make no charge for connecting service to the member's premises for the initial installation of service. When service has been terminated or when service is transferred to a new member, the Cooperative's representative shall read the meter at such premises and secure necessary application for service from the new occupant. A service charge of \$2.00 (Two Dollars) will be made to occupant for the reconnecting or transferring of such service. Service charge will be due and payable at time of connection or transfer or upon notice of said charge. No meters shall be installed or reinstalled after working hours unless in the judgment of the Manager there exists circumstance that will justify the additional expense.

12. RESALE OF POWER BY MEMBERS

All purchased electric service used on the premises of the member shall be supplied exclusively by the Cooperative, and the member shall not directly or indirectly sell, sublet, or otherwise dispose of the electric service or any part thereof.

13. SERVICE CHARGE

All service calls made by the Cooperative pertaining to the Consumer's premises shall be charged at the rate of \$2.00 (Two Dollars) per call (if such service is performed within the regular working hours of the Cooperative's employee. If call for such service is made outside the normal working hours of the Cooperative's holidays or Sunday, a charge of \$2.00 (Two Dollars) will be made to the member's account for such a call). Said charges are due and payable upon notice of such charge.

RULES AND REGULATIONS

C. Meters

15. METER TESTS

All new meters shall be checked for accuracy before installation. The Cooperative will, at its own expense, make periodical tests and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of meters at the request of the member and upon payment of a fee of \$2.00 (Two Dollars) paid in advance. When the test made at the member's request shows that the meter is accurate within 2% slow or fast, no adjustment will be made to the member's bill and the fee paid will be forfeited to cover cost of requested test. When the test shows the meter to be in excess of 2% fast an adjustment shall be made to the member's bill by recalculating the monthly bills for a period equal to one-half ($\frac{1}{2}$) of the time lapsed since the last previous test, but in no case shall this period exceed three (3) months and the cost of testing the meter found to be inaccurate will be borne by the Cooperative and the \$2.00 (Two Dollars) fee paid by the member will be refunded.

16. FAILURE OF METER TO REGISTER

In the event a member's meter should fail to register, the member shall be billed from the date of such failure at the average consumption of the member based on the three (3) month period immediately preceding the failure.

17. DISCONTINUANCE OF SERVICE BY COOPERATIVE

The Cooperative may refuse to connect or may discontinue service to a member for the violation of any of its rules and regulations. The Cooperative may discontinue service to a member for the theft of current or the appearance of current-theft devices on the premises of the member. The discontinuance of service by the Cooperative for any cause stated in this rule does not release the member of his obligation of all bills due.

18. CONSUMER'S WIRING

RULES AND REGULATIONS

- B. Sixty (60) ampere main and range service panel and three #6 service entrance conductors will be the MINIMUM requirements.
- C. Thirty (30) ampere service panel will not be approved for the main service switch for any dwelling, church or business.
- D. Where range and water heater are to be installed, a sixty (60) ampere main and range in PARALLEL with three #4 service entrance conductors will be the MINIMUM.
- E. All rooms must be wired for lighting and every room and basement must have one or more receptacles.
- F. Two inch rigid conduit will be the MINIMUM requirements where service entrance conduit is used for a riser.

NEW HOUSE CONSTRUCTION

- A. Size of service entrance conductors and main service panel to be determined by the proposed load and conditions as set forth in National Electric Code.
- B. MINIMUM size service entrance conductors will be three #3 RH, three #2RH or TW conductors, or service entrance cable with a 100 ampere rated main service panel.
- C. Two inch rigid conduit will be the MINIMUM requirements where service entrance conduit is used for a riser.
- D. Where two inch rigid conduit is used for the riser the bolts for the support of the conduit must go through the brick, stone or the sheeting and fasten through the studs or header. Two eye clamps with set screw must be used and placed approximately twelve (12) inches above the meter base and twelve (12) inches below the eaves or cornice. Meter base to be fastened with lead tamps, expanders, toggle or wing bolts.

INSTALLATION OF ELECTRIC WATER HEATERS

- A. All installations of electric water heaters must meet National Electric Code and R.E.A. requirements.
- B. All installations of electric water heaters must be inspected by R.E.A. personnel, without charge, before special rate will apply to power bill.
- C. The consumer is responsible for notifying the Cooperative when electric water heater is ready for inspection.
- D. All electric water heaters must be connected with a three fuse disconnect and be provided with an apparatus ground.

RULES AND REGULATIONS

METER POLE INSTALLATION

- A. All meter pole installations must be provided with a main fused switch or circuit breaker mounted below the meter, with a capacity of the total load which the meter pole will serve.
- B. All installations and wiring of the meter pole must meet National Electric Code and R.E.A. requirements.

19. BILLING

Members will receive statements for electric service on the 1st day of each month for service rendered for a thirty-day period ending the 1st day of the preceding month. All statements are due and payable upon receipt and shall be paid at the office of the Cooperative within ten (10) days from date of bill. Failure to receive electrical statement will not release the member from payment obligation. Should the statement not be paid as above, the Cooperative may at any time thereafter on a five (5) days' notice to the member discontinue service. Should it become necessary for the Cooperative's representative to call at the Consumer's premises or other locations for the purpose of collecting a delinquent account, a charge of \$2.00 (Two Dollars) will be made to the member's account for the extra service rendered, due and payable at the time such delinquent account is collected. If service is disconnected for non-payment, an additional charge of \$2.00 (Two Dollars) will be made for reconnecting service due and payable at time of such reconnection.

20. METER READING

2-11-63

Each member receiving service will be required to supply the Cooperative with the reading of each meter on the form as furnished by the Cooperative, on such date as designated by the Cooperative. Upon failure by the member to supply the Cooperative with such meter reading for three (3) consecutive meter reading dates, the Cooperative shall act by having its representative read the member's meter and a service charge of \$2.00 (Two Dollars) will be made for the extra service rendered. The service charge will be made to the member's account and will be due and payable upon notice of said charge. In the event that an error in meter reading should be made or member fails to send in meter-reading card, the member shall pay for that month either the minimum bill for the service which he receives, or if he should be a larger user, he shall pay an amount approximately equal to his average bill. Then the following month his bill shall be computed on the regular schedule prorated for two months and the amount paid shall be credited.

RULES AND REGULATIONS

D. Classification of Consumers

APPROVED
JUL 26 1957 *AW*
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

21. PURPOSE OF CLASSIFICATIONS

Classification is a means for treating without discrimination all members having similar characteristics in their use of service.

22. FARM CONSUMER

A farm is any operating unit consisting of three acres or more. Consumers qualifying under this classification shall be billed under Rate Schedule "A" or "A-wh

23. NON-FARM RESIDENTIAL CONSUMER

A non-farm residential consumer shall be any residential consumer not qualifying as an operating unit under Rule 22. Consumers qualifying under this classification shall be billed under Rate Schedule "A" or "A-WH".

24. COMMERCIAL CONSUMER

A commercial consumer will be any business establishment such as a store, office, garage, tavern, creamery, factory, hotel, tourist cabin, mill, quarry or institution other than schools, churches or community halls. Consumers qualifying under this classification shall be billed under Rate Schedule "B" or "LP".

25. RESIDENTIAL AND COMMERCIAL ESTABLISHMENT OCCUPYING SAME PREMISES DESIRING SERVICE THROUGH A SINGLE METER

A member operating a commercial establishment on the same premises as his residence may be served through a single meter and shall be classified as a commercial consumer. If the consumer prefers his business establishment be served under the commercial rate and his residence served under the farm and home rate two (2) meters will be required.

26. LARGE POWER CONSUMER

A large power consumer will generally be recognized as a commercial or power consumer requiring more than 25 KVA of transformer capacity. Consumers qualifying under this classification shall be billed under Rate Schedule "LP".

27. SERVICE TO SCHOOLS, CHURCHES AND COMMUNITY HALLS

Schools, churches and community halls and other small non-profit community welfare institutions shall qualify under this classification and be billed under Rate Schedule "E" or "E-WH". The special rates available to these small institutions shall be limited to 5 KVA of transformer capacity. Larger institutions shall be served under the commercial or large power schedule and will be classified as Commercial and billed under Rate Schedule "B" or "LP".

SCHEDULE B

Commercial, Small Power and Three-Phase Farm Service

Applicable:

Entire territory served.

Availability of Service:

Available to commercial, small power and three-phase farm customers.

Type of Service:

Single-phase, and three-phase where available, at available voltage. 120/240

Rates:

First 40 kwh per month @ 7.5¢ per kwh
Next 40 kwh per month @ 5.0¢ per kwh
Next 920 kwh per month @ 2.5¢ per kwh
Next 2000 kwh per month @ 2.0¢ per kwh
Over 3000 kwh per month @ 1.5¢ per kwh

CHECKED
JUN 27 1957
BY *A. Waddington*

Minimum Charge:

The minimum monthly charge under the above rate shall be \$3.00 net where 5 KVA or less of transformer capacity is required. Each customer requiring more than 5 KVA of transformer capacity shall pay, in addition to the above minimum, 60¢ for each additional KVA or fraction thereof required. Where the minimum charge is increased in accordance with the terms of this section, additional energy therefor may be taken in accordance with the terms of the foregoing schedule.

Delayed Payment Charge:

In the event the current monthly bill is not paid within fifteen (15) days from the date of the bill, five percent (5%) will be added to the bill.

Terms:

2-11-63

In those cases where additional investment is required for three-phase service, it will be rendered only after the following conditions are met:

CLASSIFICATION OF SERVICE

SCHEDULE B (continued)

(a) The customer will give satisfactory assurance by means of a written agreement as to the character, amount, and duration of the business offered.

(b) The customer will guarantee a minimum monthly bill for the three-phase service which will be computed on the basis of $1\frac{1}{2}$ percent of the additional investment, which includes the additional cost of transformers necessary to make three-phase service available. This minimum bill will be effective for a period of three (3) years from the date on which service commences. After this period the regular minimum monthly charge will be effective.

(c) In no case, however, will the minimum bill for three-phase service be less than the previously specified "minimum monthly charge."

Special Rules:

(a) Single-phase customers having their homes on the same premises may include farm and home service on the same meter.

(b) Service under this schedule includes lighting, incidental appliances, cooking, heating, and motors.

(c) Service under this schedule is limited to customers whose load requirements can be met by a transformer having a capacity not to exceed 25 KVA.

(d) Service under this schedule is not available to seasonal customers unless otherwise provided for.

(e) Motors having a rated capacity in excess of ten horsepower must be three-phase.

SCHEDULE W H

Controlled Water Heater Service

Applicable:

Entire Territory Served.

Availability:

Available to consumers taking service under Schedule A, Farm and Home Service, Schedule B, Commercial and Small Power service and Schedule E, Service to Schools, Churches, and Community Halls.

Rates:

Off-Peak Rate

1.1 cents per kilowatt-hour

The amount of energy billed at the off-peak rate shall be either estimated in accordance with the method specified under "I" below or metered as specified under "II" below. The balance of energy used by the consumer shall be billed under Schedule A, B, or E, as the case may require.

Special Rules:

Consumers desiring uncontrolled water heating service may secure such service under Schedules A, B, or E, in which case no time switch will be required.

I. Method of estimating off-peak consumption where a separate meter is not installed. Available only to residential consumers taking service under Schedule A. Not more than 300 kwh may be billed under the off-peak rate under Method I. Neither heating element shall exceed 2,500 watts capacity.

1. Where no Electric Range is in Use

If the consumer does not have an electric range and the total usage of all service in any month is 400 kwh or more, the last 300 kwh will be billed at the off-peak rate. If the total usage for all service in any month is less than 400 kwh, only that portion of the total usage in excess of 100 kwh will be billed at the off-peak rate. At least 100 kwh must be billed under Schedule A before the off-peak rate is used.

CLASSIFICATION OF SERVICE

SCHEDULE W. H (continued)

2. Where an Electric Range is in Use

If the consumer has installed and uses an electric range and the total usage for all service in any month is 500 kwh or more, the last 300 kwh will be billed at the off-peak rate. If the total usage for all service in any month is less than 500 kwh, only that portion of the total usage in excess of 200 kwh will be billed at the off-peak rate. At least 200 kwh must be billed under Schedule A before the off-peak rate is used.

II. Method of metering off-peak consumption. Available to consumers taking service under Schedule B or Schedule E and those consumers taking service under Schedule A having water heating installations in which the capacity of any heating element exceeds 2,500 watts or in which the estimated off-peak consumption exceeds 300 kwh per month.

For all such consumers the Corporation shall install an additional meter to register the consumption of the off-peak heating element, and all energy consumed by the off-peak heating element shall be billed at the aforesaid off-peak rate, provided that a total combined consumption of at least 100 kwh per month shall be billed on Schedule A, B, or E, as the case may require, before any energy is billed on the off-peak rate and provided further that if the consumer is using an electric range at least 200 kwh per month shall be billed on Schedule A, B, or E before any energy is billed on the off-peak rate.

The consumer shall install and operate in regular use a standard approved storage type of electric water heater.

The standard approved type of water heater shall consist of an insulated tank of 30 or more gallons' capacity, which has two thermostatically controlled, non-inductive heating elements of not less than 1,000 watts each. The lower element shall be placed to heat the whole tank and the upper element to heat only the upper part of the tank. The Corporation shall approve the insulation and size of the tank together with the size of the heating elements.

The lower element shall be controlled by a time switch which shall be set so that the lower element may operate for a maximum of 16 hours' use per day. The lower element will be automatically disconnected during the remaining hours, which shall be the hours of peak load. The upper element shall not be controlled by the time switch and shall be permitted to operate at any hour of the day. The Corporation shall furnish and maintain the time switch.

SCHEDULE LP

LARGE POWER SERVICE

Availability

Available to consumers located on or near Seller's three-phase lines for all types of usage, subject to the established rules and regulations of Seller.

Rate

\$1.25 per month per KW of billing demand;
Plus energy charges of -
2.0¢ per KWH for the first 50 KWH used per month
per Kw of billing demand
1.5¢ per KWH for the next 100 KWH used per month
per KW of billing demand
1.0¢ per KW for all remaining KWH used per month

CHECKED
JUN 27 1957
BY *H. Waddington*

Determination of Billing Demand

The billing demand shall be the maximum kilowatt demand established by the consumer for any period fifteen consecutive minutes during the month of which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as follows:

Power Factor Adjustment

The consumer agrees to maintain unity power factor as nearly as practicable. Demand charges will be adjusted for consumers with 50 KW or more of measured demand to correct for average power factors lower than 90%, and may be so adjusted for other consumers if and when the Seller deems necessary. Such adjustments will be made by increasing the measure demand 1% for each 1% by which the average power factor is less than 90% lagging.

Fuel Cost Adjustment Charge

In case the rate under which Seller purchases power at Wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceeding month.

Minimum Monthly Charge

The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question.

- (1) The minimum monthly charge specified in the contract for service.

Date of Issue May 1, 1957

Date Effective May 1, 1957 ~~Feb. 28, 1939~~

SCHEDULE LP (continued)

Minimum Monthly Charge (continued)

- (2) A charge of \$0.75 per KVA of installed transformer capacity.
- (3) A charge of \$25.00

Minimum Annual Charge for Seasonal Service

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual payment of twelve times the minimum monthly charge determined in accordance with the foregoing section in which case there shall be no minimum monthly charge.

Type of Service

Three-phase, 60 cycles, at Seller's standard voltage.

Condition of Service

1. Motors having a rated capacity in excess of ten horsepower (10 H.P.) must be three-phase. Motors in excess of five horsepower (5 H.P.) shall be provided with compensating starting equipment acceptable to the Seller.

2. Both power and lighting shall be billed at the foregoing rate. If a separate meter is required for the lighting circuit, the registrations of the two watt-hour meters shall be added to obtain total kilowatt-hours used and the registrations of the two demand meters shall be added to obtain the total kilowatt demand for billing purposes.

(3) All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

4. If service is furnished by primary distribution voltage, a discount of ten percent (10%) shall apply to the demand and energy charges, and if the minimum charge is based on transformer capacity, a discount of ten percent (10%) shall also apply to the minimum charge. However, the Seller shall have the option of metering at secondary voltage and adding the estimated transformer losses to the metered kilowatt-hours and kilowatt demand.

Street Lighting

Availability:

CHECKED
JUN 27 1957
BY: *A. W. Dunnington*

This rate schedule is available, for street lighting services shown herein in any community in which the Cooperative operates. Service is subject to the provisions herein and the provisions of the Cooperative's standard contract. Should the service not meet the standard provisions, then the Cooperative reserves the right to revise the charges listed hereinafter so as to include any unusual cost involved.

Conditions of Service:

1. All night service shall be from dusk to dawn.
2. Standard Overhead System: Street lighting equipment furnished under the standard overhead rate shall consist of wood poles, brackets, appropriate fixtures for the lamps being used, the necessary overhead street lighting circuit, protective equipment, controls and transformers. The Corporation will install, own, operate and maintain the entire street lighting service, including circuits, lighting fixtures and lamp replacements. The Customer shall pay the standard overhead rate. The Cooperative will, upon request furnish under the ornamental service rate, monodublar aluminum poles of it's own choosing, together with overhead wiring and all other equipment and provisions set out above. The Customer will pay the Ornamental Service Rate.
3. Other Than Standard Overhead System: Should the Customer require a system or equipment other than the standard overhead system set out above, the Customer may make a non-refundable contribution to the Cooperative in an amount equal to the difference between the cost of the standard system and the cost of the system or equipment required. The Customer shall similarly pay the difference in cost between replacements of required system or equipment and replacement of standard overhead systems or equipment. The Cooperative will maintain and operate the entire street lighting system. The Customer shall pay the standard overhead rate, except where special or ornamental street lighting service with underground wiring is involved, the Customer shall pay the ornamental service rate. However, if the Customer agrees to maintain the underground wiring and to replace same when necessary at Customer's expense, then the standard overhead rate will apply.
4. The system will be either series or multiple at the option of the Cooperative.
5. Any cost which are to be borne by the Customer shall be paid at the time of the installation.

Nolin Rural Electric Cooperative Corporation

APPLICATION FOR MEMBERSHIP

APPROVED
JUL 26 1957
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

The undersigned (hereinafter called the "Applicant") hereby applies for membership in, and agrees to purchase electric energy from Nolin Rural Electric Cooperative Corporation (hereinafter called the "Corporation"), upon the following terms and conditions:

1. The Applicant will pay to the Corporation the sum of \$5.00, which, if this application is accepted by the Corporation, will constitute the Applicant's membership fee. The Applicant expressly agrees that the Corporation may, prior to the acceptance of this application, use the \$5.00 for development of a rural electrification project. If the Corporation is unable to obtain a loan from the Rural Electrification Administration to finance the construction of such a project, the Applicant agrees that only so much of the \$5.00 as has not been expended for development expenses will be returned to him. If the Corporation succeeds in establishing a rural electrification project but is unable to furnish service to the Applicant, the sum of \$5.00 will be returned to the Applicant.

2. The Applicant will, when electric energy becomes available and the meter installed, purchase from the Corporation all electric energy used on the premises described below and will pay therefor monthly at rates which will be fixed by the Board of Directors of the Corporation. The Applicant will pay a bill of at least \$3.00 per month regardless of the number of kilowatt hours consumed.

3. The Applicant will cause his premises to be wired in accordance with wiring specifications approved by the Corporation. The Applicant's house is approximately _____ feet from the proposed distribution line of the Corporation, or from the road.

4. The Applicant will comply with and be bound by the provisions of the charter and by-laws of the Corporation of which he will be a member, and such rules and regulations as may, from time to time, be adopted by the Corporation.

5. The undersigned states that as a part of the consideration of the Corporation's acceptance of this membership application, and the construction by the Corporation of electric lines to the property of the undersigned, he hereby agrees to install and use the following equipment:

Equipment	Monthly Consumption
_____	_____ KWH
_____	_____ KWH
_____	_____ KWH
_____	_____ KWH
_____	_____ KWH
	Total _____ KWH

6. The acceptance of this application by the Corporation shall constitute an agreement between the Applicant and the Corporation, and the contract for electric service shall continue in force for _____ from the date service is made available by the Corporation to the Applicant, and thereafter until cancelled by a least 30 days' written notice given by either party to the other.
